Spinning to weave is an unparalleled pleasure. The variety of fibers available to spinners today is extensive. Hand spinning dates back thousands of years. There is no textile that we can weave where hand spun yarns are not appropriate—for centuries, every textile made in the world was spun by hand. We aspire to make those long-ago spinners and weavers proud.

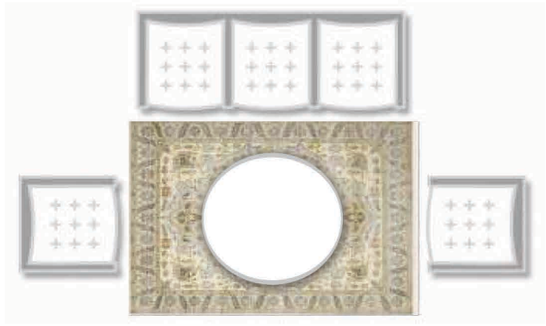
CHOOSING THE RIGHT SIZE RUG FOR EVERY ROOM

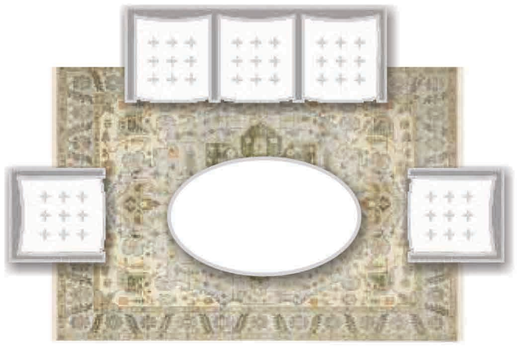
Want to add beauty and a touch of color to your living spaces? Try spreading beautiful rugs on your floors and see the difference in your interiors. In fact, rugs bring a perfect addition to your home. Here are some tips to choose the right size rug for every room.

CHOOSING A RUG FOR LIVING ROOM

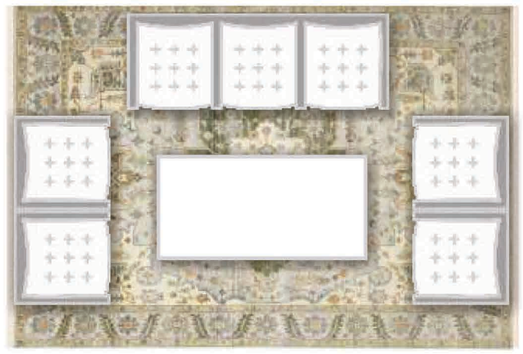
When deciding on the size an area rug for your living room, leave 18 inches of exposed floor space around rug's perimeter. Try bigger rugs as undersized rugs can make your furnishings look uncoordinated. With a 5' x 8' rug, position all legs of the furniture off of the rug, for 8' x 10', place front legs of the furniture on rug's outer edges and for 9' x 12', all furniture should be placed on the rug.



5'x8'



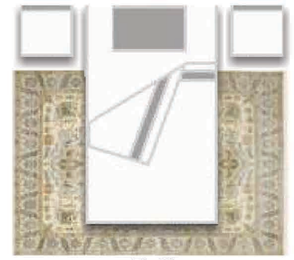
8'x10'



9'x12'

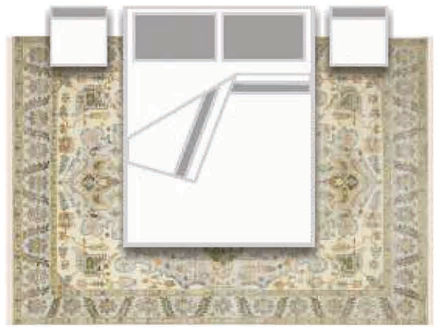
CHOOSING A RUG FOR YOUR BEDROOM

The size of your bedroom is the first thing to be defined to choose a rug for a bedroom. A 5' x 8' area rug is recommended for a full-sized bed. The rug should be perpendicular to the bed, exposed in front and equally on both its side. Queen-sized beds follow the same rule but an 8' x 10' or 9' x 12' rug is recommended. A bigger rug is better as a small rug goes against the grand look of the bedroom. For twin-sized beds, the rug should have approximately 18-24 inches exposed on the front and all sides of the bed.



5'x8'

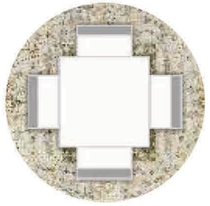
8'x10'



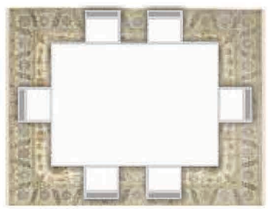
9'x12'

CHOOSING A RUG FOR DINING ROOM

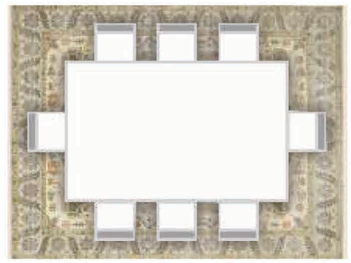
Focus on your dining table and its seating capacity while choosing the size of an area rug for the dining room. A general rule of thumb is that your rug should extend around 24 inches around the table with 18 inches of floor space between the rug and wall. A 5' x 8' rug is recommended for dining areas seating 2-4 people while an 8' x 10' or 9' x 12' is recommended for spaces seating 6-8 people.



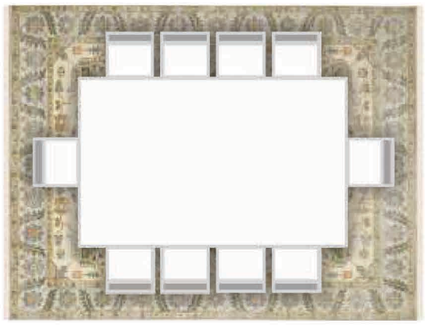
8'x8'



5'x8'



8'x10'



9'x12'

CHOOSING A RUNNER FOR OTHER SPACES

Runner rugs are a marvel for your home making the small space of your interiors look elongated while simultaneously bringing beauty and depth to your cozy space. The hallway runner rugs help heavy trafficked area look cozier, while the runner rugs in entry way help in giving a bigger look to your narrow space. Similarly, kitchen runner rugs lighten up your kitchen while bedroom runner rugs make your space look cozy and the staircase runner rugs prevent slips and falls.
